SUMMARY

Aspiring Fullstack Developer with a strong foundation in Information Systems, currently in my third semester of study. I bring hands-on experience in developing and managing both front-end and back-end applications, with a particular focus on creating user-friendly and efficient web solutions. My academic journey has deepened my skills in key programming languages, database management, and responsive design principles. Driven by a passion for coding and continuous learning, I am excited to tackle real-world projects that combine technical precision with creative problem-solving. Eager to leverage my knowledge and grow within dynamic development environments.

EXPERIENCE

Deputy Chair of the Informatics Management Association   03/2024 - 12/2024
Astra Polytechnic

Led and coordinated events, workshops, and team activities, enhancing members' technical and professional skills. Supported strategic planning, problem-solving, and strengthened leadership, teamwork, and communication abilities.

Chief Executive of Social Services Event   02/2022 - 04/2022
SMA Negeri 13 Jakarta

Oversaw planning, organization, and execution of a large-scale community service event. Managed teams, coordinated logistics, and ensured successful delivery of services to beneficiaries, building strong leadership, project management, and communication skills.

Deputy Chief Executive of the 2022 Seroja Cup   01/2022 - 12/2022
SMA Negeri 13 Jakarta

Assisted in managing and executing a successful sports event, overseeing team coordination, logistics, and event scheduling. Strengthened leadership, problem-solving, and organizational skills through high-stakes event planning and collaboration.
